*Learning to Do,
Doing to Learn,
Earning to Live,
Living to Serve.*

MORE THAN JUST FARMERS...

West Valley FFA is a diverse program available to all students at the West Valley Early College High School.

Our students compete in extracurricular programs that prepare them to be leaders through classroom instruction, career development events and supervised agricultural experience projects, including public speaking contests, judging teams, raising livestock, agriscience research, and more.

Students enrolled in our program have opportunities to:

- Serve on the chapter leadership team
- Compete in the CA FFA state Agriscience Fair
- Raise and show livestock at the Shatsa County Fair
- Participate in the agriculture business and floriculture enterprises
- Compete on the Agronomy, Meat Judging, Welding, and Livestock Judging CDE teams
- And much more!

ABOUT US

Our Pathways

Agriculture:

A career pathway in agriculture can prepare students for entry level jobs or an opportunity to continue their education in college. General agriculture includes classroom and hands-on instruction with livestock, plant science and soil science. Agriculture business is a capstone class.

Agriculture Mechanics:

A career pathway in agriculture can prepare students for entry level jobs or an opportunity to continue their education in college. Students in ag mechanics learn construction design, fabrication skills, and safe operation of tools and equipment

Our Faculty

We currently have four exceptional agriculture educators. For more information please visit westvalleyffa.org
